NOTE: ALL CLAIMED FEATURES MUST BE ILLUSTRATED! A “SCHEMATIC” SPECIES, TO BE COMPLIANT, MUST BE ACCOMPANIED BY DRAWINGS SHOWING ALL FEATURES INTENDED TO BE CLAIMED. A “SCHEMATIC” DRAWING FIGURE MAY NOT BE USED TO SUPPORT CLAIMS TO FEATURES NOT ILLUSTRATED UNLESS IT IS INDICATED, WITH CONSISTENT DRAWINGS, WHERE NON-ALTERNATIVE CLAIMED FEATURES ARE ILLUSTRATED.

This application contains claims directed to the following patentably distinct species of the claimed invention: the species of Figure(s) 4-5 versus that of Fig(s). 6 versus Fig(s). 7-9c v Fig(s). 10 v 11 v 12a-13d v 14 v 15 v 16 v 17 v 18-19 v 20 v 21 v 22 v 23 v 24 v 25 v 28 v 29 v 30 v 31 v 32 v 33 v 38.

The species are independent or distinct because they contain mutually exclusive features.

Applicant is required under 35 U.S.C. § 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, AND A LISTING OF **ALL** CLAIMS READABLE THEREON (**NOT**, FOR EXAMPLE, “AT LEAST CLAIMS...”), INCLUDING **ANY CLAIMS SUBSEQUENTLY ADDED**, AND IF THE AMENDMENT OF ANY CLAIMS RESULTS IN A CHANGE OF THE SPECIES THEY READ UPON, THAT TOO SHOULD BE INDICATED.

FAILURE TO DO SO MAY RESULT IN A HOLDING OF

NONRESPONSIVENESS. (Note that any “schematically” illustrated elected species may not schematically represent plural embodiment varying claimed features, unless clarified by drawing corrections, and an indication of where those consistent and non-alternative features may be found, to be responsive. If those details are illustrated in another figure[s], that other figure[s] should be identified.) An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.¹

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 C.F.R. § 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. M.P.E.P. § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. § 103 of the other invention.

¹ Applicants may wish to consider listing claims readable with care in view of the possible consequences of having to later cancel them.

Art Unit: 3682

The elected species is limited to the features set forth in the elected figures, and does not include features not illustrated in those figures, or illustrated in other figures. Accordingly, applicant should review all claims to ensure that all features of the elected species are properly illustrated, as required, in order to avoid a holding that an unillustrated feature does not form part of the elected species.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lenard A. Footland, whose telephone number is (571) 272-7103.
